

# GRENOBLE CHEMICAL PARK (JARRIE - PONT-DE-CLAIX)

www.grenoblechemicalpark.com  
grenoble.chemicalpark@vencorex.com  
+33 4 76 69 50 00

SITES MANAGEMENT:  
Jarrie : ARKEMA  
Pont-de-Claix : VENCOREX  
GRENOBLE ALPES METROPOLE

**TOTAL AREA 200 HECTARES OF WHICH 30 ARE IMMEDIATLY AVAILABLE FOR CHEMICAL INDUSTRY.  
15 HECTARES ARE ALSO SUITABLE FOR OTHER INDUSTRIAL ACTIVITIES IN A DEDICATED AREA**

## SHARED SERVICES/UTILITIES

<b>STEAM</b>	30 bars and 6 bars
<b>ELECTRICITY</b>	63 kvolts & 5.5 kvolts
<b>INDUSTRIAL FLUIDS</b>	Industrial water / demineralized water / fire system water
<b>INDUSTRIAL GAS</b>	Natural gas / compressed air / nitrogen / hydrogen / oxygen / CO <sub>2</sub>
<b>TREATMENT OF EFFLUENTS</b>	Wastewater treatment plant Incinerator
<b>POSSIBLE CONNECTION</b>	The treatment plant An incinerator
<b>SAFETY/SECURITY</b>	Medical care service / fire department / employees are trained in the first aid and emergency response / internal fire brigade specialized in chemical risk
<b>TELECOM &amp; DATA</b>	Plug&Play connection / optical fiber / high-speed internet / phone network
<b>TECHNICAL SUPPORT FUNCTIONS</b>	Risk and HSE (hygiene, health, safety and environment) management HSE charter Equipment inspection service certified by the French authorities Industrial maintenance / analytical laboratory
<b>INFRASTRUCTURE MANAGEMENT</b>	Railway traction / logistics / warehousing / rental of buildings / meeting rooms

## OPERATIONS / PRODUCTS

- Chlorine and derivatives (chlorates, hydrochloric acid, sodium hypochlorite...)
- Salt - caustic soda
- Zirconium, hafnium and derivatives
- Phosgène, trichloride phosphorus
- Hydrogen and derivatives (hydrogen peroxyde, hydrochloric acid...)
- Carbon monoxyde - oxygen - nitrogen - CO<sub>2</sub>
- The site is also connected to ethylene pipe-lines

## CHEMICAL PARK SPECIFICATIONS

- 9 companies on site
  - Air Liquide (France)
  - Rubis SA (France)
  - Arkema (France)
  - Suez RR IWS Chemicals (France)
  - Extracthive (France)
  - Solvay (Belgium)
  - Framatome (France)
  - Vencorex (France)
  - Novacid (France)
- 1,300 employees
- Security: Fenced site, guarded 24/7, Seveso-certified site (high level of security)
- Certifications at industrial level: ISO 9001 - ISO14001 - ISO 50001 - OHSAS 18001 - MASE

## SPECIFIC SERVICES/UTILITIES

- High temperatures incinerator for chlorinated wastes
- Integrity of Devices managed by inspection service certified by the French administration
- Process Safety, engineering, DCS conception & implementation
- Infrastructure management: roads, underground networks, racks, reception of heavy vehicles
- Communication & public relations
- Training center
- Full support for the installation of new activities and development of business opportunities

## INFRASTRUCTURE

2 airports: Lyon-Saint Exupéry, Grenoble 10 mins to A65/A64/A63 motorways

Connected to 4 motorways, and directly connected to A7 motorway, 1 hr from Lyon

10 mins from high speed train stations

Direct rail connections (to Lyon, Geneva, Torino, Marseille...)

## NETWORK: INNOVATION AND POTENTIAL PARTNERS

LOCAL INNOVATION CLUSTERS	Axelera	Chemicals and environment
	AXEL ONE	Collaborative platform for innovation: materials and processes
	TENERRDIS	New technologies for energy transition
	MINATEC	Micro and nano technology innovation campus
RESEARCH CENTERS	CEA Grenoble	Chemicals, energy, health, information and communication
	CNRS, ESRF, ILL	Chemicals, materials, biology, physical
UNIVERSITY	University of Grenoble	One of the most famous French scientific pole, with 45.000 students and 3.000 researchers, 23 faculties, schools and institutes (including 6 engineering schools), 80 laboratories, several technical high schools (including chemistry).
POTENTIAL PARTNERS	In this industrial area	More than 200 permanent subcontractors
